THE VENUE

Green Door Winery is a small boutique establishment run by Ash and Kath Keefe in the Ferguson Valley, 20 minutes east of Bunbury.

Located high on the slopes of the Darling Scarp, the cellar door and vineyard offers panoramic vistas of the coastal strip from Myalup to Dunsborough.

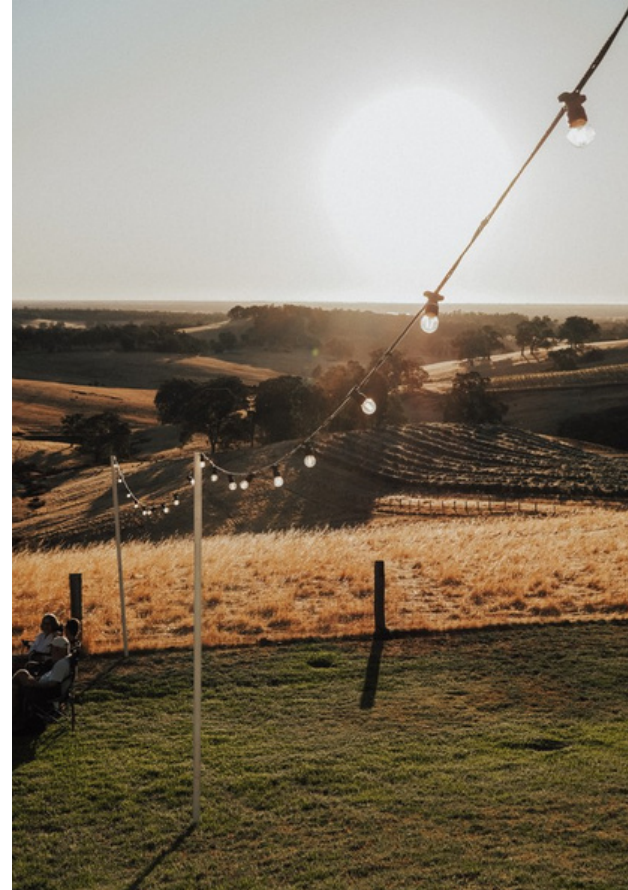

The focal point of the cellar door is the grand green door, imported from Fez, Morocco. The Moorish theme of the winery and cafe matches the predominantly Spanish/European characteristics of the wines grown on the property.

Our maximum capacity for inside the cellar door is 75 under normal operations. We have a fully licensed outdoor space with tables set under canopy trees and a picnic area with umbrellas overlooking the vines that could accommodate a variety of different setup options. The cellar door can comfortably seat 60 for a sit down dinner style (long table or scattered tables) or up to 75 for cocktail style.

RATES

The rate for hire is **\$500 per hour*** (minimum 3 hours). Included in this rate is staff to run the function and bar, set-up and clean-up and the use of the entire venue and facilities including commercial kitchen, parking, licenced outdoor space and cellar door. Hiring the cellar door on a **long weekend is \$750 per hour** to cover extra staffing costs etc.

Green Door has a lovely view and outlook from our property. We have many enquiries about having photos taken on the property for special occasions. There is a one off charge of \$100 to take professional photos if you are NOT hosting your function here.

THE BAR

For functions we can offer our wine, beer and cider bar menu or partial menu depending on budget and taste.

Ashley is very conscious of soil health and the vineyard is managed with a minimal intervention ethos, creating fruit with great flavour. All grapes are handpicked and basket pressed, with all wines made on the property by Ashley and consultant winemaker, Vanessa Carson. Various different wine making techniques are used including the use of Amphora pots for fermentation, cold soaking on skins and the addition of whole bunches to ferments.
